

23 TBC™

23 TBC is a 23% Hydrochloric Acid based bowl cleaner. Effective in hard water areas where lime and other tough mineral salts are a problem

Use/Benefits

- Cleans quickly.
- Descales and destains efficiently.
- Prevents corrosion.
- Economical.

Physical Properties

Appearance	-	Liquid emulsion
Colour	-	Opaque white
Odour	-	Pungent
Specific Gravity	-	1.10 – 1.13
pH	-	<1

Recommendations

For use on vitreous china only. Not for use on enamel or porcelain. Toilet bowls: remove water from bowl by rapidly plunging swab, mop or rubber gloved fist up and down in the trap. Use 2-3 oz. of product to swab interior surfaces, being sure to remove encrustations from hidden rims or lips of the bowl. Urinals: Flush urinal and remove strainer. Saturate swab mop with product and thoroughly clean entire surface especially behind rims and lips. Pour 2-3 oz. of product into trap. Replace strainer and flush. Tile and cement surfaces around toilet bowls and urinals can be cleaned by swabbing with bowl cleaner.

Code

12/1 Litres per case 80036
