WINTER-B-GONE

Winter-B-Gone is a liquid detergent formulated to remove the white film build up and slippery brine from ice melt products that get tracked in at entrance ways. It demineralizes salt deposits on floors. Reduces slip and fall hazards by eliminating the ice melt film which attracts water. With regular use to eliminate salt deposits and build up floor finishes last longer keeping their shine, minimizes wear and tear on carpets and lane runners.

Use/Benefits

Can be used with mop and bucket, carpet extractors and auto scrubbers.
Will not harm glossy floors.
Free-rinsing.
Labour and time-saving.
Will not damage or dull finish, regardless of dilution factor.
Errors in dilution will not cause accidental stripping of floor finish.
Contains no ammonia, solvents or abrasives.
Can be used on any cleaning operation where the use of water alone will cause no harm.
Best to use with cool water.

Physical Properties

Appearance	- Clear, orange liquid, with no odour.
Odour	- indescript chemical smell low voc
pH	- 12.0 – 13.0

Recommendations

For routine winter use add 1 part Winter-B-Gone to 40 parts cool water (25 ml per liter of water). Mop daily. For use heavy film add 1 part to 30 parts cool water (35 ml per liter of water). Apply mixed solution liberally with mop; allow to soak for a few minutes. Now wring out mop and pick up dissolved ice melt. For ice melt and rock salt stains in carpets add 1 part to 30 parts carpet extractor rinse water (35 ml per liter of water). Can also be used in Automatic scrubbers, follow machine manufactures recommendation and adjust dilution to desired results.
