## URINAL DRIP SYSTEM

Get the best of both worlds: an odour control and urinal drip system all in one strong, sturdy cabinet. We searched the world for an indestructible and versatile urinal drip system. This unit is maintenance free. The cabinet is vented on all three sides. Air circulates over the reservoir to automatically deodorize. Just add the product to the bottle and your odour problems are solved.

### Use/Benefits

Economical – ready-to-use formula, cheaper than so called concentrates.

Effective – three vented sides circulate the air.

Maintenance free – high quality synthetic wick system prevents clogging and inefficient flow of product.

Cost savings – high impact, modern design, vandal proof cabinet.

Long lasting – 1 Litre refillable bottle lasts 30 days.

Ready-to-use fragrances.

Clean and deodorizes with every flush: removes mineral deposits, hard water scale and uric salts.

No spill dispensing closure – easy to use.

### Physical Properties

Appearance	-	Clear liquid
Odour	-	Apple fragrance
Specific Gravity	-	1.0

### Recommendations

Unit comes complete with all necessary hardware and installation instructions for both toilet and urinal mounting. Ready-to-use liquids – just add the product to the bottle and install for continuous 30 day drip.
