PRESOAK

Presoak is a high foam, non-abrasive presoak detergent. Contains a combination of water conditioners, controlled release chlorine and buffering and cleaning agents which allows Presoak to bleach, sanitize and deodorize as it cleans.

Use/Benefits

For use on all food preparation equipment, stainless steel flatware, teapots etc.
Has the added insurance of chlorine.
Helps to clean and disinfect cement and tile floors.

Physical Properties

Colour	-	Blue and White Powder
Appearance	-	Free flowing powder
Odour	-	Slight Chlorine

Recommendations

AS A PRESOAK: Dissolve 1/4 oz. Presoak per gallon of hot water. Add utensils, agitate slightly and allow to soak for up to 10 minutes. Do not overexpose.

AS A GENERAL CLEANER: Dissolve up to 1 oz. per gallon of hot water. Wipe equipment using a sponge or cloth. Some rinsing may be required depending on soil conditions.

CAUTION: Do not use on sterling silver or silver plate, darkening may occur.
