About Armstrong

We're **READY.**

A family owned and operated business based in Mississauga, Ontario, Canada, the Armstrong name is well known and respected in the industry markets of Sanitary Supply, Industrial Janitorial Wholesalers, Specialty Cleaning, and full line Distributors throughout Canada and the eastern seaboard of the United States. The founders, the Armstrong family, have been involved in this industry since 1969 and have been successful in building a sustainable business securing the confidence, trust and respect of their customers and vendors that is unparalleled.

Armstrong Manufacturing Inc. is also a contract manufacturer and co-packer of industrial and retail chemical liquids and powders. Key strategic alliances with North American based raw material manufacturers and distributors will ensure that Armstrong is well equipped to provide customers with cost effective solutions. 

We're **INNOVATING.**

Over the past several years Armstrong Manufacturing Inc. has been key in the development of functional and cost-effective green products as well as returning existing products to a more organic and natural base. Through quality and comparative testing of both new and existing products, we are engineering products that are more environmentally friendly for today and the future. 

We're **LEADING.**

We are meeting or exceeding the new Global Harmonized System — The Armstrong Team has taken initiatives to educate and grow with the on-going changes that the World has made to the Industrial Chemical Industry in relation to health, wellbeing and environmental care. We are providing user friendly products that yield excellent performance, use fully recyclable packaging and labeling, and continue to maintain or exceed customer demand in efficacy and functionality.

With COVID, RSV, and Flu: Hand washing is more important than ever!

A number of infectious diseases can be spread from one person to another by contaminated hands. These diseases include gastrointestinal infections, such as Salmonella, and respiratory infections, such as influenza, RSV, and COVID-19.

Washing hands properly, with soap and water will remove substantially more disease causing organisms and help prevent the spread of the germs (like bacteria and viruses) that cause these diseases.

Liquid Odor Control Fragrance Free™

Developed for those areas with environmental and fragrance sensitivities with Pro Odor Control POC

An all natural environmentally friendly, fragrance free solution to eliminate odors.

Item	SDS	Pack / Size
39329	0469	12x4oz

Our ProOdor™ brand has been engineered with a unified fragrance across the entire spectrum of products, ensuring complete compatibility across the line. Control odours in multiple locations with consistent and reliable results.

A unified fragrance throughout a building is highly desired. When used as an odour control system in all areas, the unified fragrance does more than control odours. Over time, the fragrance becomes associated with cleanliness — it essentially becomes the indicator of "clean areas" throughout the entire building.
