

PetCare ***Essentials™***

ENZYME MPC

ENZYME MPC is an effective natural cleaner for all hard surfaces and fabrics. This enzyme cleaner contains (EAB) “extra action bacteria” and (AOE) “anti-odour extender” to help control malodours, break down organic wastes, and makes clean ups quick, easy and very effective. An environmentally aware product, user friendly and non-toxic. If given enough contact time, this product cleans with no mechanical agitation.

Use/Benefits

- Easy to use.
- Can be used in our urinal drip system to dissolve uric salts.
- Helps to maintain plumbing for efficient flow of pipes and drains.
- Non-staining when used as directed.
- Non-toxic, non-carcinogenic.

Physical Properties

- | | |
|------------------|---|
| Appearance | - White opaque emulsion liquid |
| Odour | - Herbal, Spring Green |
| Specific Gravity | - 1.0 |
| pH | - 7.0 – 8.0 |
| Bacteria | - 7 strains of bacteria for fast and quick digestion
200 billion spores per gallon |

Recommendations

To digest bathroom odours around urinals, toilets, sinks – dilute 8-16 oz. Enzymatic Cleaner per gallon of water. Wash down area with diluted solution. Let stand for 5 minutes. Rinse using conventional methods. Washrooms will be fresh and odour free for hours. More effective when used in conjunction with our urinal screen, rim sticks and diskettes (a washroom odour control system).
