CRETE SEAL

This water-based Concrete Sealer is a liquid penetrating sealer especially designed to protect floors with a tough transparent film. Dirt and soil are kept from penetrating into floors and is held on the surface for easy removal.

Use/Benefits

Seals interior or exterior concrete
For use on many floor types
Easy to use
Water-based
Non-strippable

Physical Properties

Appearance	-	Milky emulsion
Odour	-	Acrylic odour
pH	-	7.0 - 8.0
SG	-	1.03

Recommendations

Recommended for use on all types of floors including terrazzo, concrete, marble, terra cotta and magnesite. Floors must first be washed to remove any oil, grease or dirt, rinsed thoroughly and allowed to dry before using product. Apply with a mop, roller, low pressure sprayer or lambswool applicator. Wait 30 - 60 minutes between coats and allow final coat to dry for 1 - 2 hours. Coverage: 1500-2000 sq. ft per 4 litre container.
