

Armstrong™

D'FOAM

D'FOAM an extraction foam retardant / concentrated foam guard that halts the build-up of foam in extractor recovery tanks. Increases pick up capacity of extraction equipment. Recommended for foam control in all carpet extraction cleaning machines and other maintenance equipment.

Use/Benefits

Free rinsing.
Excellent foam breaking properties.
Non-Flammable.

Physical Properties

Appearance	-	Thin translucent liquid
Odour	-	Mild solvent
pH	-	3.0 - 5.0
Specific Gravity	-	1.0

Recommendations

For Carpet Extractor Systems: Dilute 25-50 mL per Litre of water. Allow approximately 120 mL of diluted D'FOAM solution to be sucked into vacuum hose. Add additional D'FOAM solution to the recovery tank as required to maintain foam control. Other Maintenance Machines: When excessive foam is a problem, add 30 mL or more of D'FOAM to the recovery tank of the machine. Make further additions as required.
