

# Armstrong™

## SPOT IT

SPOT IT is a water-based formula that contains natural ingredients to remove the toughest of spots and stains quickly, effectively and safely. Ideal for traffic lanes and pre-spotting..

### Use/Benefits

Water-based formula contains natural solvents.

Use with confidence on: pet urine, food stains, grass, grease, vomit and many types of water-based inks and paints.

Effective on: carpeting, clothes, table cloths, pet blankets and curtains.

Ideal as a pre-spray for laundry.

### Physical Properties

Appearance	-	Clear liquid
Odour	-	Citrus
Specific Gravity	-	0.98
pH	-	6.8 - 7.5

### Recommendations

Caution: always pre-test on an inconspicuous area of fabrics and carpets for colour fastness.

Use with confidence on carpeting, table cloths, clothing, upholstery and furniture (cloth-type). For tough stains, use full strength - saturate the affected area, allow residue to penetrate the backing of the carpet. Use a soft bristled brush and agitate the area. Use clean white towel or uncoloured paper towel to absorb excess moisture and pick up stains.

An excellent pre-laundry stain spray - just mix 1 part Spot-It with 1 part water and spray on soiled areas prior to laundry washing.
