LIQUA GLASSWASH DETERGENT

LIQUA GLASSWASH DETERGENT is a chlorinated liquid detergent for glass washing machines. It is a concentrated liquid blend of water conditioners, alkalis and chlorine. This unique formulation provides exceptionally clean and sparkling results on all types of glassware.

Use/Benefits

- Cuts grease quickly.
- Gives sparkling clean dishes, glasses, cutlery, silverware and other eating utensils.
- Effective in hard, soft, cold or hot water.
- Rinses freely.
- Leaves no residual odour on eating utensils.

Physical Properties

- | | | |
|------------------|---|---------------------|
| Appearance | - | Clear white liquid |
| Odour | - | Mild chlorine odour |
| Specific Gravity | - | 1.13 – 1.16 |
| pH | - | 12.5 – 13.5 |

Recommendations

Liqua Glasswash Detergent is dispensed automatically from the shipping container directly in the wash tank of the glass machine. For best results a concentration of approximately 2-1/2 oz. per 10 gallons of water should be maintained, with water temperatures of 140-150°F. Liqua Glasswash Detergent contains potassium hydroxide and should not be used on aluminum or soft metals.
